Format: SC, HC, and Deluxe clamshell cased HC

This richly illustrated photographic overview captures the beauty and artistry of the remarkable world-class, Native American Indian baskets of California, circa 1895 to 1940, known as the Florescence or Flowering. It is a tribute to these artisans and includes biographical snapshots of weavers and portraits of their masterpiece California Indian baskets, which today exist in museums and private collections throughout the United States. Collecting highly complex and artistic Native American baskets became a successful tourist business in the late 19th and early 20th century — tourism in the United States exploded as a result of the expansion of the railway system to hitherto relatively inaccessible locations. This new business benefitted both collectors of this art form and the weavers who created them. The transition from woven baskets used for utilitarian use to more durable and less expensive metal cookware and storage vessels allowed weavers the time needed to innovate and create baskets specifically catering to tourist interests. During this period of Florescence, some of the world's most intricate, beautiful, and artistic baskets were woven, particularly by highly -talented weavers representing several Native American tribes located throughout California.

Publisher: Sunbelt Publications

Author: Mark C. Jorgensen

Photography: Jeff Young

Pub Date: 1/15, Format: SC

(Dark Green Indicates DBS Territory)

*Desert Bighorn Sheep: Wilderness Icon* is the most comprehensive photographic work on this elusive symbol of the deserts of the southwest United States and northern Mexico. Photographer Jeff Young worked for years to assemble tens of thousands of high-quality photographs and assemble them into what is the finest collection of desert bighorn photos ever published. Author Mark Jorgensen brings his five decades of experience studying desert bighorn sheep and managing their habitat to provide the informative text of this book. The book's six chapters features 200 high quality photographs featuring rare behavior, sheep in their rugged desert habitat, ewes nurturing newborn lambs, and massive rams in stunning ritualized combat for dominance. The text documents the struggle to provide habitat for the desert bighorn from Nuevo Leon west to Baja California, Mexico, and from Texas west to California. Today, well-regulated hunting programs in the United States and Mexico have generated millions of dollars in revenue, which has been directed to bighorn management and conservation programs.
