Who We Are

SUNBELT PUBLICATIONS has over 35 years of experience in the publishing business. Our mission is to contribute to the body of knowledge on the topics of natural science, outdoor adventure, regional histories, and stories that celebrate the land and its people. Sunbelt books encourage discovery and conservation of the natural, historical, and cultural heritage of our unique region that includes California, the desert southwest, and Baja California, Mexico. We craft and market award-winning books and distribute similar books in our genre that help support our partnering non-profit 501(c)(3) organizations and educational institutions with similar missions.

What We Do

Publishing

We develop quality publications for works of outstanding merit that advance our mission. Our Publishing Program takes projects through development, editing layout, production, sales, and marketing. We have won numerous awards for individual publications as well as for overall contributions to the trade and region.

Distribution

We offer exclusive distribution that broadly expands markets for most small publishers, non-profit organizations, and educational institutions that publish important quality titles that fall within our niche. Sunbelt's Distribution Program expands sales coverage and simplifies fulfillment by providing access to specialized book trade channels, such as Ingram, Barnes & Noble, and Amazon, as well as to a broad spectrum of loyal retailers including museums, specialty stores, and independent bookstores.

Wholesale

We carry a selection of favorite titles from various publishing houses to meet the demands of our many specialty retail customers. **Visit the "Specialty Catalog" page of our website for information on these titles.**

Custom Publishing

We provide clients full publishing services that include editing, design layout, and printing with the same standards that we ensure for our own publications. If the subject of a custom publishing project falls within our niche, it may also be eligible for our Distribution Program. See page 23 for details.

AWARD-WINNING documentary filmmaker and author Nicholas Clapp has studied, filmed, and written about the deserts of the world. His most recent title, *The Outlaw's Violin*, is a tale of a would-be bad man with a good heart.

Did you know that we carry over 500 books, maps, and guides by other publishers?

These titles can be found by searching the "Specialty Catalog" page on our website. You can find this page on the drop-down menu of the "Bookstore" tab. Catalogs are organized by series, topic, and region. Please email, call, or visit our warehouse to purchase these titles. Tom Harrison Maps and Waterford Pocket Naturalist guides are just two of the popular series we carry.

TOM HARRISON MAPS

Tom Harrison Maps publishes full-color, shaded-relief topographic maps for hiking, backpacking, and mountain biking in parks, forests, and wilderness areas of California. Recognizing that maps are difficult for most people to navigate, they are designed so you don't have to know how to read a map, or even use a compass.
