**ISBN: 9781495191213**, Retail: \$29.95  
Publisher: M & E Books  
Author: David Kier  
Pub Date: 5/16, Format: SC

This book contains a detailed history of the activities by the Spanish and others attempting to colonize the peninsula of California from 1535 to 1855. Over 125 photographs, maps, and drawings, provide the reader with a view of the actions of the Spanish Empire using missions to colonize California. The author's research resulted in new discoveries and facts which are included in this look at the history and the present conditions of the twenty-seven peninsula missions; many relocated to multiple sites. The nearly 200 missionaries who served in Baja California between 1683 and 1855 are also named. This book covers the period from the discovery of California in the 1530s through the establishment of all twenty-seven missions in Baja California to when the last missionaries left in 1855.

The *Baja California Plant Field Guide* is a manual to native and naturalized plants of the Baja California peninsula, Mexico. It is a useful guide for the entire Sonoran Desert and for Southern California, as over 50% of the species covered also occur in these regions. Over 715 different plants in 111 plant families are identified (most in both English and Spanish), with both scientific and common names and detailed descriptions. Many species are illustrated with color photographs. Descriptions entail plant habit and height; stem, leaf, flower, and fruit morphology; range; elevation; pollination biology; ethnobotanical uses; and discriminating comparisons with close relatives. This book is intended for everyone from the interested novice to the professional botanist.

This handbook on ecology and paleoecology is infused with insights on the origins and development of Mexico's Sea of Cortés during a span of more than 12 million years. The concept of natural history appears less often in increasingly specialized literature, nowadays, failing to draw a connection between the present and the distant past. This book makes the connection and brings the past alive. It deals with multiple and interlocking ecosystems and their fossil counterparts, providing a holistic overview on geography, ecology, and geology. Students, scholars, and outdoor enthusiasts of all kinds will find this guide an indispensable resource for exploration of virtually any stretch of coastline on the Gulf of California.

**HONEYMOON AT SEA: A Memoir**  
**ISBN: 9781738945207,**  
Retail: \$22.99  
Publisher: RE: Books  
Author: Jennifer Silva Redmond  
Pub Date: 8/23, Format: SC

When Jennifer Silva married Russel Redmond, they made a decision to spend a year at sea, sailing in Mexico. The honeymoon tested their new relationship, not just through rocky waters and unexpected weather, but in the ways that living on a twenty-six foot sailboat makes one reconsider what's truly important. In this charming, meditative memoir, Jennifer recounts that first fateful year they spent at sea, moving back and forth through the waves of her life. On their first voyage, the couple sailed Watchfire to Baja's Sea of Cortez, where they spent a year before sailing south along Mexico and Central America and through the Panama Canal. Jennifer's unique experience on the boat weaves back and forth through time as she explores the events that lead her to taking the first step onto the boat-from her childhood to the time she spent as a struggling actor in New York.

**ISBN: 9780692707661**, Retail: \$12.95  
Publisher: Shuluk  
Author: Michael Connolly Miskwish  
Pub Date: 5/16, Format: SC

Kumeyaay cosmology was traditionally intertwined with ceremonies, harvest & hunts, burning schedules and the acquisition of spiritual power. Personal conduct was subject to cosmological constraints and rewards. Cosmology was so important that Spanish priests and subsequent U.S. government agents worked hard to repress and expunge the beliefs from Kumeyaay society. This monograph provides a partial glimpse of the Kumeyaay cosmology with worldview, observatories, constellations and stories. Includes modern interpretations of the calendar.
