**MRS. MOREAU'S WARBLER: HOW BIRDS GOT THEIR NAMES**  
ISBN: 9781783350919, Retail: \$16.95  
Publisher: Guardian Faber Publishing  
Author: Stephen Moss  
Pub date: 4/20, Format: SC

Swallow and starling, puffin and peregrine, blue tit and blackcap. We use these names so often that few of us ever pause to wonder about their origins. What do they mean? Where did they come from? And who created them? The words we use to name birds are some of the most lyrical and evocative in the English language. They also tell incredible stories: of epic expeditions, fierce battles between rival ornithologists, momentous historical events, and touching romantic gestures. Through fascinating encounters with birds, and the rich cast of characters who came up with their names, in *Mrs. Moreau's Warbler*, Stephen Moss takes us on a remarkable journey through time. From when humans and birds first shared the earth to our fraught present-day coexistence, Moss shows how these names reveal as much about ourselves and our relationship with the natural world as about the creatures they describe.

**SIERRA BIRDS: A HIKER'S GUIDE**

**ISBN: 9781890771782**, Retail: \$10.00  
Publisher: Heyday Books  
Author: John Muir Laws  
Pub Date: 1/98, Format: SC

Over 35,000 copies sold! As a naturalist managing the field studies program at the California Academy of Sciences, John Muir Laws noticed that novice birders often distinguish birds by color and size rather than species. This inspired him to create *Sierra Birds: A Hiker's Guide*, a unique book that assumes no prior birding knowledge on the part of the reader. Color-coded keys eliminate the time-consuming frustration of thumbing randomly through a guide, and a cross-index is also included for more advanced birders. All this in a format that is simply organized, lightweight, and small enough to tuck inside a pocket. A first-rate naturalist, Laws is also an accomplished artist. His illustrations are lively, colorful, and accurate, and drawn to represent species in the manner in which one generally sees them in the field.
