Featuring only Southwest cacti of Arizona, California, Nevada, New Mexico, Utah, Colorado, and Texas, the booklet is organized by group for quick and easy identification. Narrow your choices by group and view just a few cacti at a time.

COASTAL LIFE OF THE PACIFIC COAST

ISBN: 9781647553944, Retail: \$9.95
Publisher: Adventure Publications
Authors: Stephanie Panlasigui
Pub Date: 5/24
Format: Spiral

Beaches are the borders between two vastly different ecosystems. As such, they are teeming with a variety of fascinating life. Whether you're a tourist on vacation or a local resident on a day trip, keep this tabbed booklet close at hand. Written by expert naturalist Stephanie Panlasigui, it features more than 100 of the most common and important animals and plants to know—from birds and fish to crabs, sharks, and more! Plus, the booklet includes other beachcombing finds—like seashells and sea glass—as well as a quick guide to tidepools.

COMMON NATIVE BEES OF THE WESTERN UNITED STATES

ISBN: 9781647553630, Retail: \$9.95
Publisher: Adventure Publications
Author: Ryan Bartlett
Pub Date: 8/23
Format: Spiral

Bees are beloved garden visitors and are essential to a healthy ecosystem. We welcome their arrival and celebrate their vital work as pollinators, supporting the growth of flowers, plants, and trees. If you see bees in your area, keep this convenient guide close at hand. Designed for ease of use, the booklet is organized by group for quick identification. Narrow your choices by group, and view just a few bees at a time. The professional photographs showcase more than 170 species—including bee look-alikes, such as beetles, flies, and moths. Written by debut author Ryan Bartlett, founder of the educational organization Colorado Native Bee, *Common Native Bees of the Western United States* features species found west of the 100th meridian (from western North Dakota down to western Texas and all the way to the Pacific Ocean).

GARDEN BUGS & INSECTS OF CALIFORNIA

ISBN: 9781647552947, Retail: \$9.95
Publisher: Adventure Publications
Author: Jaret C. Daniels
Pub Date: 4/23
Format: Spiral

Get this tabbed booklet to garden insects and bugs, and learn how to identify and attract (or repel!) them. Brightly colored flowers, rich soil, and delicious nectar, the garden landscape is a bug's paradise. It attracts the ones we want to see—like bees, butterflies, and lady beetles—but also the ones we don't, such as grasshoppers, spider mites, and snails. Keep this convenient guide to garden bugs and insects close at hand. Designed for ease of use, the tabbed booklet is organized by group for quick identification. Narrow your choices by group, and view just a few creepy crawlies at a time. The professional photographs showcase more than 100 species. Written by acclaimed author and expert entomologist Jaret C. Daniels, *Garden Bugs & Insects of California* features only species found in the state.

SIMPLY STARGAZING

ISBN: 9781591935810, Retail: \$9.95
Publisher: Adventure Publications
Author: Jonathan Poppele
Pub Date: 2/18
Format: Spiral bound softcover with tabs

To gaze skyward is to be filled with wonder. You might find yourself asking questions like, "Is that bright object a planet or a star? What does the constellation Perseus look like? When's the next meteor shower?" Find these answers and more in *Simply Stargazing*. The tabbed booklet is simple and convenient to use, with full-color photographs and illustrations. Topics are organized by season for quick and easy identification, and award-winning author Jonathan Poppele offers observation tips and instructions on everything from the moon, planets, and deep-sky objects to the ecliptic and the zodiac. Six full-sky charts make locating constellations a snap at any time of year.

SPIDERS OF THE UNITED STATES & CANADA

ISBN: 9781647553463, Retail: \$9.95
Publisher: Adventure Publications
Author: Sebastian Alejandro Echeverri
Pub Date: 5/24, Format: Spiral

Some people love them, while others fear them. However, one thing is certain: spiders play an essential part of a healthy ecosystem. They are key predators of insect pests—like fleas and mosquitoes—and they serve as prey for beloved animals such as birds. If you see spiders in your area, keep this convenient guide close at hand. Designed for ease of use, the spiral-bound booklet is organized by type of spider web for quick identification. Narrow your choices by the web you see, and view just a few spiders at a time. Plus, you'll also find sections for spiders that don't utilize webs. The professional photographs showcase more than 150 species.

WHALE-WATCHING ON THE PACIFIC COAST

ISBN: 9781647554002, Retail: \$9.95
 Publisher: Adventure Publications
 Author: Stan Minasian
 Pub Date: 5/24, Format: Spiral

Seeing a whale is an experience unlike any other. You wait, you hope, and when a beautiful creature breaks the ocean surface, the moment is as thrilling as it is unforgettable. Whether you're a tourist on vacation or a local resident on a day trip, keep this booklet close at hand. Written by environmental educator and Emmy Award-winning documentary film producer Stan Minasian, it features more than 20 species of whales, dolphins, and porpoises. When you spot a marine mammal in the Pacific Ocean, check this guide to identify it and learn more about it!
